

# Industrial Markers

## Metal Marker

The Nissen Metal Marker utilizes a specially-formulated polyurethane paint to provide permanent marking under almost any conditions. The marks will remain bright, clear, and legible even on material that will be stored outside for long periods of time or material that will receive heavy abuse.

- Marks on all metals, wood, rubber, glass, etc.
- Writes on any surface; rough, smooth, rusty, wet, oily or dry
- Marks withstand heat and weathering; they won't chip, peel, fade, or rub-off
- Available in 12 lead-free, high-gloss colours, and in 3 point sizes

| Colour | 5/64" Point Size<br>Part No. | 1/8" Point Size<br>Part No. | 3/16" Point Size<br>Part No. |
|--------|------------------------------|-----------------------------|------------------------------|
| White  | NSMM564-W                    | NSMM18-W                    | NSMM316-W                    |
| Yellow | NSMM564-Y                    | NSMM18-Y                    | NSMM316-Y                    |
| Black  | NSMM564-BK                   | NSMM18-BK                   | NSMM316-BK                   |
| Red    | NSMM564-R                    | NSMM18-R                    | NSMM316-R                    |
| Blue   | NSMM564-BL                   | NSMM18-BL                   | NSMM316-BL                   |
| Green  | NSMM564-GN                   | NSMM18-GN                   | NSMM316-GN                   |
| Orange | NSMM564-O                    | NSMM18-O                    | NSMM316-O                    |
| Brown  | NSMM564-BN                   | NSMM18-BN                   | NSMM316-BN                   |
| Pink   | NSMM564-PI                   | NSMM18-PI                   | NSMM316-PI                   |
| Purple | NSMM564-PU                   | NSMM18-PU                   | NSMM316-PU                   |
| Gray   | NSMM564-GY                   | NSMM18-GY                   | NSMM316-GY                   |
| Tan    | NSMM564-TN                   | NSMM18-TN                   | NSMM316-TN                   |

## Low Chloride Metal Marker

The Nissen Low Chloride Metal Marker was specifically designed to safely mark metals which are attacked by halogens and low melting metallics. It will not impart contaminants that could cause cracking or weakening of the metal, especially with heat applications, such as welding or cutting.

- Writes on rough, smooth, wet, oily or dry surfaces
- Marks withstand heat and weathering; they won't chip, peel, fade, or rub-off
- Meets most specifications for Stainless Steel and nuclear components.  
Independent Laboratory Certifications of Analysis are available and traceable to each marker
- Available in 8 bright, high-gloss colours, and in 3 point sizes

| Colour | 5/64" Point Size<br>Part No. | 1/8" Point Size<br>Part No. | 3/16" Point Size<br>Part No. |
|--------|------------------------------|-----------------------------|------------------------------|
| White  | NSLCM564-W                   | NSLCM18-W                   | NSLCM316-W                   |
| Yellow | NSLCM564-Y                   | NSLCM18-Y                   | NSLCM316-Y                   |
| Black  | NSLCM564-BK                  | NSLCM18-BK                  | NSLCM316-BK                  |
| Red    | NSLCM564-R                   | NSLCM18-R                   | NSLCM316-R                   |
| Blue   | NSLCM564-BL                  | NSLCM18-BL                  | NSLCM316-BL                  |
| Green  | NSLCM564-GN                  | NSLCM18-GN                  | NSLCM316-GN                  |
| Orange | NSLCM564-O                   | NSLCM18-O                   | NSLCM316-O                   |
| Pink   | NSLCM564-PI                  | NSLCM18-PI                  | NSLCM316-PI                  |

## High Temperature Metal Marker

The Nissen High Temperature Metal Marker provides legible markings at temperatures as high as 2100°F (1150° C).

- Marks on any surface; rough or smooth; wet, oily or dry
- Available in 2 lead-free colours with a 1/8" point size

| Colour | Part No. |
|--------|----------|
| White  | NSHTM-W  |
| Black  | NSHTM-BK |

## Penamark

The Nissen Penamark Marker is designed for fabricators. Marks placed on bare metal will bleed through the primer and remain visible. The penetrating action can be stopped, so as not to bleed through the final coating.

- Marks on any surface; rough or smooth; wet, oily or dry
- Available in dark blue with a 3/16" point size

| Colour    | Part No. |
|-----------|----------|
| Dark Blue | NSBM     |

**Feltip Paint Marker**

The versatile Nissen Feltip Paint Markers dispense a fast-drying, high-gloss enamel paint for permanent marking, lettering, coding and numbering of both interior and exterior surfaces. The markers are easy-to-use and convenient to carry in your pocket.

- Marks on almost anything; metal, plastic, printed circuit boards, glass, wood, paper, leather, textiles, etc.
- Writes on any surface; porous or non-porous; rough or smooth; wet, oily or dry
- Marks are permanent; they won't chip, peel, fade, or rub-off. They withstand heat and weathering under adverse conditions.
- Unique precision valve accurately meters flow, so the right amount of paint passes through the tip
- Available in 9 bright, high-gloss, lead-free colours
- Available in Standard (approximately 1/8" wide line) and Fine-Line (approximately 0.75mm wide line) versions

| Colour | Feltip Paint Marker Part No. | Feltip Paint Marker - Fine Line Part No. |
|--------|------------------------------|--|
| White  | NSFM-W                       | NSFM-FW                                  |
| Yellow | NSFM-Y                       | NSFM-FY                                  |
| Black  | NSFM-BK                      | NSFM-FBK                                 |
| Red    | NSFM-R                       | NSFM-FR                                  |
| Blue   | NSFM-BL                      | NSFM-FBL                                 |
| Green  | NSFM-GN                      | NSFM-FGN                                 |
| Orange | NSFM-O                       | NSFM-FO                                  |
| Silver | NSFM-SV                      | NSFM-FSV                                 |
| Gold   | NSFM-GO                      | NSFM-FGO                                 |

**Metal Marker In A Bottle**

The Nissen Ball Point Metal Marker is available in an unbreakable plastic bottle for marking with paint on metal, wood, plastic, glass, etc. The tough metal tip has a 1/8" precision Stainless Steel ball and comes with a plastic cap to keep the tip clean and to allow the marker to be carried in your pocket.

- Marks on any surface; rusty, smooth, wet, dry, or oily
- Marks are durable, weather proof and won't chip, peel, fade, or rub-off
- Fast-drying
- Marker is refillable
- Available in 7 high-gloss, lead-free colours

| Colour | Part No. |
|--------|----------|
| White  | NSBW-W   |
| Yellow | NSBW-Y   |
| Black  | NSBW-BK  |
| Red    | NSBW-R   |
| Blue   | NSBW-BL  |
| Green  | NSBW-GN  |
| Orange | NSBW-O   |

### Solid Paint Markers

The smooth writing Nissen Solid Paint Markers make marking smooth, fast and easy. The markers are solid sticks of paint protected by an unbreakable plastic case. They can conveniently and cleanly be carried in your pocket. The plastic case prevents the paint from drying out so it always writes easily and smoothly. The case also allows you to use the entire stick without needing a separate holder.

- Marks on metal, wood, plastic, glass, cardboard, textiles, etc.
- Writes on any surface; rough or smooth; wet, oily or dry. Evens marks under water
- Marks won't run
- Marks are permanent; they won't chip, peel, fade, or rub-off. They withstand heat weathering under adverse conditions
- If desired, marks can be removed from non-porous surfaces with standard industrial solvents
- Available in four fast-drying, lead-free colours
- Available in Standard (approximately 5/16" wide line) and Jumbo (approximately 1/2" wide line) versions

| Colour | Solid Paint Marker Part No. | Jumbo Solid Paint Marker Part No. |
|--------|-----------------------------|-----------------------------------|
| White  | NSSPM-W                     | NSSPM12-W                         |
| Yellow | NSSPM-Y                     | NSSPM12-Y                         |
| Red    | NSSPM-R                     | NSSPM12-R                         |
| Black  | NSSPM-BK                    | NSSPM12-BK                        |

### Feltip Ink Markers

These markers will permanently mark on almost any surface: cardboard, wood, metal, paper, plastic, glass, etc. They will last 8 to 10 times as long as the typical felt tip marker, because the entire marker barrel is filled with ink, not fibre stuffing. The patented valve-action dispenses the ink as required.

- Durable weatherproof marks
- Four fast-drying bright colours
- Available in three marking widths

| Colour | Fine-Line Tip Part No. | Medium Tip Part No. | Broad Tip Part No. |
|--------|------------------------|---------------------|--------------------|
| Black  | NSFI-F-BK              | NSFI-M-BK           | NSFI-B-BK          |
| Red    | NSFI-F-R               | NSFI-M-R            | NSFI-B-R           |
| Blue   | NSFI-F-BL              | NSFI-M-BL           | NSFI-B-BL          |
| Green  | NSFI-F-GN              | NSFI-M-GN           | NSFI-B-GN          |
