WHALE SPRAY, THE FUTURE OF WELDING.

Nowadays as a result of the globalization, world markets are constantly changing, both on the consumers and the corporations' sides. When it comes to consumers, there is an increase on the demand of higher qualities, tailored products and sustainability origins. Then, on the other hand there are companies evolving to meet these standards to offer, instead of a simple product, a full service that guarantees optimum results and total comfort, always taking into consideration the safety of its users and the environment.

More than **35 years** of expertise **formulating and manufacturing** Welding chemicals allowed us to understand our customers needs entirely and offer them exactly what they need, allowing each part of the team WS to have at their disposal multiple reliable solutions for their specific needs.

At **Whale Spray**, we are committed with our job and this led us to create a solution for each and every one of the need of the Welders and the Welding processes, in order to ensure that, with WS, Welders will have at their disposal the **widest range of high quality chemical products** for the Welding World.

When it comes to quality, as manufacturers we have a total control from the raw materials and filling processes to the final products and distribution, allowing us to oversee the whole process and be able to offer just the **TOP quality**.

At last but not least, in terms of environmental sustainability we evolve every day, increasing the recycled and recyclable percentage of all our products and creating very efficient formulas so that with the **less environmental impact** our customers can achieve the best results.

We have a clear mission, to become the chemical company for Welding processes that adapts better and faster to the changes and demands of the Welding World.

We invite you to be part of the future...
Welcome to the team **Whale Spray**!

WATER & OIL BASE ANTISPATTERS

WS 1801 G/WORKS **BIO**

Non-flammable Antispatter.

High performance anti-spatter that provides a fast, easy and safe way to prevent spatter adhesion on any metal surface and all kind of torches. Biodegradable, compatible with painting processes. Weld pore-free. 0% harmful effects. Excellent anticorrosives properties on all types of surfaces including zinc plated surfaces.

WSP-1801G

Format
Box 4 x 1.32 gal
6.60 gal
52.83 gal

WS 1801 S/WORKS **BIO**

Non-flammable Antispatter.

High performance anti-spatter that provides a fast, easy and safe way to prevent spatter adhesion on any metal surface and all kind of torches. Biodegradable, compatible with painting processes. Weld pore-free. 0% harmful effects. Excellent anticorrosives properties on all types of surfaces including zinc plated surfaces.

WSP-1801S

Format
12 x 13.12 oz.

WS 1800 S Oil Based **BIODEGRADABLE** Antispatter

Antispatter Biodegradable Spray, silicone-free, long film life. Ecologically safe. Extends the life of the nozzles and welding elements. Suitable for tools, nozzles. Manual and Robotic Welding

WSP-1800S

Format
12 x 13.5 oz.

CERAMIC ANTISPATTERS

TOP
SALES

WS 1805 S

Ceramic Antispatter.

Innovative 100% ceramic anti-spatter coating, #1 in the world market. Creates an ultra-fast drying ceramic coating that protects surfaces and consumables for up to 8 hours. Outstanding temperature resistance up to 1200°C, oil-free and drip-free. Ideal for the protection of surfaces, positioners, parts, nozzles in MIG, MAG, laser and plasma welding processes.

WSP-1805S

Format

12 x 10.26 oz.

WORLD
NOVELTY

WS 1805 GEL

Gel Ceramic Antispatter.

Innovative anti-spatter gel 100% ceramic that protects treated surfaces for up to 8 hours. Extraordinary temperature resistance up to 1200°C. Manual welding.

WSP-1805L

Format

24 x 17.63 oz.

NON DESTRUCTIVE TEST

WS 1820 S - CRACK 1

Red Penetrating Liquid.

Special red penetrant liquid for NDT tests. Inspection of welds, castings, forgings. Can be removed with water and solvents. It works with natural light. Excellent defect revealing characteristics.

WSP-1820S

Format

12 x 9.13 oz.

WS 1821 S - CRACK 2

White Developer Liquid.

Special white developer liquid for NDT tests. Inspection of welds, castings, forgings. Can be removed with water and solvents. Very fast drying special formula, reveals surface defects in a matter of seconds with unbeatable accuracy and reliability.

WSP-1821S

Format

12 x 9.70 oz.

WS 3050 S - CRACK 3

NDT Cleaner.

Product with high cleaning power and fast drying, specially designed for cleaning NDT processes. It does not leave residues, stains and does not produce corrosion. Provided with 360° valve.

WSP-3050S

Format

12 x 12.16 oz.

WSP-KIT-NDT4

WS 1819 KIT

Red Penetrate, White Develop & Cleaner

At WS we like to go one step forward and combine quality with functionality, this is why we put at the reach of your hand a complete NDT Kit. We always focus on offering the most optimal and efficient solutions, so the users of our products have the best results.

With WS NDT Kit we provide the end user with everything needed to perform the perfect Non Destructive Testing, with total guarantee of results, because sometimes doing the whole

process right is even more important than using the right products.

MAGNETIC PARTICLES NDT

WS 1825 S - CRACK 4 Black Magnetic Particles.

Special for NDT tests. Inspection of welds & cracks/defects by means of magnetic field. Suitable for all types of ferritic welded parts. High detection sensitivity.

WSP-1825S

Format

12 x 9.70 oz.

S 1826 S - CRACK 5 Contrast Laquer.

Contrast lacquer used in conjunction with CRACK 4 in the detection of cracks in ferritic dark parts. Its white color creates the necessary contrast to perceive the crack with the naked eye. Fast drying and easy removal.

WSP-1826S

Format

12 x 11.04 oz.

STAINLESS STEEL PICKLING SOLUTIONS

WS 3627 G SPRAY

Pickling for Stainless Steel.

Special pickling gel for stainless steel of all grades. Specific for spray pickling, very thixotropic with excellent adhesion, provides a uniform finish.

WSP-3627G

Format
66.13 lbs

WS 3610 GEL

Weld Bead Pickling Gel.

Pickling gel for all types of stainless steel and nickel alloys. It has a high effectiveness and pickling speed. Does not contain hydrochloric acid or chlorides. Its red color helps the operator to see where the product is applied.

Format
4 x 4.40 lbs

SPECIAL ORDER

STAINLESS STEEL SPECIALTIES

WS 3077 S

Stainless Steel Cleaner, Polisher and Protector.

Special for cleaning and maintenance of stainless steel surfaces. Cleans and polishes leaving an invisible film that prevents the reappearance of fingerprints and traces.

WSP-3077S

Format

12 x 12 oz.

STAINLESS STEEL PASSIVATION

WS 3644 G

Stainless Steel **BIODEGRADABLE** Passivant

Product for the passivation of austenitic and ferritic stainless steels, free of nitric acid. It provides quickly a passive protective coating on stainless steel and therefore ensures corrosion resistance. It is not necessary to treat the rinse water.

WSP-3644G

Format

30 Kg Drum

Wondering why we call ourselves Whale Spray?

As a company that seeks innovation and to change the standards of the industry we work in, we wanted to break the usual serious and boring brand images that everyone is used too with something fresh and creative.

We came out with the idea that since Whales make the largest natural spray in the world, we could use this inspiration to name our company and be easily recognized by our logo as the "Whale" company all around the world :)
