DESCRIPTION

Cleaner, polish and protector for stainless steel.

WS 3077 S is a cleaner, polish and protector on just one application, specifically formulated for stainless steel surfaces. Developed with an extraordinary balance, accomplishing a clean and bright surface. An invisible film prevents the fingerprints on the surface.

Minimizes the need to clean and care for decorative stainless steel mainly when being handled. In addition to stainless steel can be used for other types of surfaces such as aluminum, copper, bronze, chrome, etc.

CHARACTERISTICS AND ADVANTAGES

- Eliminated the dust and other organic material from the surfaces with extremely effectiveness.
- The treated surfaces stay clean and bright.
- It does not leave shadows on the surface.
- Prevent from the fingerprints.
- It applies a protector thin film on the surface invisible to the eye.
- It does not attack to metals.

APLICACIONES

- Clean and maintenance of stainless steel.
- Aluminium, cooper, nickel-plated.

HOW TO USE

- Apply a small quantity on the surface or to a cloth. It is very important not to apply an excess of product on the surface, with a small quantity it is enough. Rub slowly with a dry and smooth cloth.
